

Neogen 4700

Microwell Reader

Item 9303

Designed for use with Neogen's
Veratox[®], BioKits and GeneQuence[®]
microwell test kits.

The 4700 reader is a compact, economical, standalone microstrip reader. Its streamlined design offers a touch screen interface, superb optics, onboard curve-fitting software, and built-in printer to meet the requirements of modern laboratories.

Features

- Automatic strip transportation
- Bichromic optics with four filters
- Interactive LCD touch screen with USB mouse option
- Easy to use with step-by-step prompting
- Onboard graphics printing
- Calculates results automatically; large nonvolatile memory stores more than 120 user-entered tests
- Includes one 3 x 12 strip carrier for breakapart microwells
